5. Choose the pathname where you want to save your video files by clicking the right button of Output table. When everything is setted well, click the 'Convert' button to start converting.

Tips:

Tip1: Crop---- Choose the crop mode

Tip2: Resize-----Choose the output size you need

Set Crop to "Crop both black bands" and resize to be "stretch to full screen" if you don't need to keep the subtitle.

Set crop to "Crop the upper black band" so you can keep the subtitle in the down black band.
