## Free iPod video converter

Posted by reallyone - 2008/07/16 06:00

---

With this Free iPod Video Converter you can convert videos for any type of iPod that plays video. This includes the new iPod touch, iPod nano and iPod classic in addition to the 5th generation iPod. You can also convert videos for the iPhone.

When combined with our video search and download program, this iPod Converter allows you to download, convert and copy video to your iPod automatically, using BitTorrent and RSS technology. See the Automation Guide for more details.
